Form updates

I received an email with a request to please respond to the following stipulation:

“The researcher is reminded to supply the REC with proof of permission from the SU Division for Information Governance to recruit and collect data from SU staff and students. [ACTION REQUIRED]”

In response to this, I have uploaded the institutional permission confirmation that I received from my application on the 14th of October 2019. This has been included in Section 5.1.3 of this form as “Institutional Permission Standard Agreement 1576 M Shepherd.pdf”. This is version 2, as the first permission confirmation misspelt my name.
